DETAILED ACTION

Status of Claims

1. Claims 7-10 and 24 are pending.
2. Claim 24 is rejected.
3. Claims 7-10 are allowed in view of the amendment and remarks of October 31, 2005.

Response to Arguments

4. Applicant's arguments filed October 31, 2005 have been fully considered but they are not persuasive with respect to claim 24. Applicant presents the following arguments. Applicants arguments are only persuasive for the claim limitation of the molecular ratio of glycine to the anti-ulcerative compound between 0.43:1 and 1:1 because the prior art references of record, namely Oishi et al. as well as Takechi et al., only generically teach of broader molecular ratios of the anti-ulcerative compound with glycine. For these reasons, the prior art rejections of record are germane to newly submitted claim 24.

Claim Rejections - 35 USC § 103

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
6. The rejection of claim 24 under 35 U.S.C. 103(a) as being unpatentable over Oishi et al. of H5-194225 is maintained for both the outstanding and above-stated reasons.

7. The rejection of claim 24 under 35 U.S.C. 103(a) as being unpatentable over Takechi et al. of U.S. Patent No. 5,536,735 is maintained for both the above-stated and reasons of record.
